

MMW Global

Present Highway Hubs

Miles of Journey with a Smile.....

PROJECT HIGHLIGHT

Under Bharatmala, a centrally-sponsored and funded road and highways project of the Government of India has been launched.

The ambitious umbrella programme will subsume all existing highway projects including the flagship National Highways Development Project (NHDP).

With the introduction of the BOT model in the development of highways in 2005, development of WSAs were included in the scope of the highway franchisee.

These provide facilities such as fuel station, restaurants, short term accommodation, washrooms, etc. for both passengers and truckers. However, restricted land availability for franchisees has hindered the development of WSAs by the franchisees

PROJECT HIGHLIGHT

Mandati Mahidhar Group, pioneers in transport & logistics since early 2000. It now proposes to develop an improved version of WSA Under the banner of Mandati Mahidhar Way. Existing BOT model of WSAs is running successfully elsewhere in India it makes the case easy for MMW to pursue its plan of provide transport & logistic facilities at 400 locations on Pan India basis, by 2020.

MMW Global plans to offer all these services every 50 kms on National Highways which are not available currently at one location. The services shall include:-
